

WOODWIND CLEANING:- FLUTE

1. Remove J-cloth and place in plastic bag for washing
2. Using an anti-bac cloth wipe over the flute externally. Pay particular attention to the headjoint – embouchure hole
3. Using the same wipe, clean each section of the flute internally by placing the wipe through the eye of the cleaning stick and push through each section of the flute paying particular attention to the headjoint.
4. Dry the outside with a paper towel.
5. Please make a note if there is no cleaning stick present in the case!
